PARTNER WITH DUX

DUX HAS A LONG HISTORY OF WORKING WITH INTERIOR DESIGNERS, ARCHITECTS AND CONTRACTORS.

Over the years, many of our timeless products have been developed with designers including Bruno Mathsson, Claesson Koivisto Rune and Norm Architects.

Our closest connections however are with our partners, teams and individuals that represent our brand and make professional recommendations to the end user customer.

We are always looking to expand our client portfolio with interior designers, architects and contractors that can evangelize our brand, delight their clients and drive sales for DUX...

DUX AMBASSADOR PROGRAM

We offer a DUX ambassador program that includes benefits for Interior Designers, Architects and Contractors who help drive brand awareness and sales for DUX and DUXIANA.

These benefits include professional discounts or commissions on DUX products, personal product assistance and use of the DUXIANA store and consultation space in central London for client meetings.

We can also deliver training to you, your team or organization you work with to make sure you know all you need to know about our products and the benefits of working with and using DUX products.

To apply to become a DUX Ambassador please contact our Store Manager, Karen Clarke at karen.clarke@duxiana.co.uk

DUXIANA®

Welcome to DUXIANA London

DUXIANA is centrally located in London, ideal for client visits and meetings. The showroom has recently been refurbished and showcases our complete UK product range.

There is a full bed test area, perfect for customers wishing to explore the entire range of our beds and try out the legendary DUX comfort for themselves.

The team in store are exceptionally knowledgeable and available for personal consultations for your clients.

DESIGNED FOR CONSULTATIONS...

At DUXIANA London we welcome partners that wish to meet with their clients. We have our own consultation space that can be booked for private use. You will always be greeted with a warm smile, refreshments and the space needed for a successful meeting.

You can book your consultation space by contacting the Store Manager directly:

WELCOME TO

DUX®

WELCOME TO DUX

DUX HAS DEVELOPED AND PRODUCED PREMIUM QUALITY MATTRESSES SINCE THE COMPANY'S INCEPTION IN 1926.

DUX high-performance sleep systems are the result of nine decades of research, testing and utilising technology, based on an encyclopedic understanding of sleep mechanics. The company has collaborated with leading sleep scientists, gaining an extensive knowledge of sleep. Studies proved that DUX users fall asleep faster and enjoy an extra hour of deep sleep, resulting in better health.

OUR MISSION...

To design, produce and provide comfort through high quality products and exceptional service, staying at the forefront of industry, using innovation along with our component design philosophy and our unique experience.

Our primary focus is comfort.

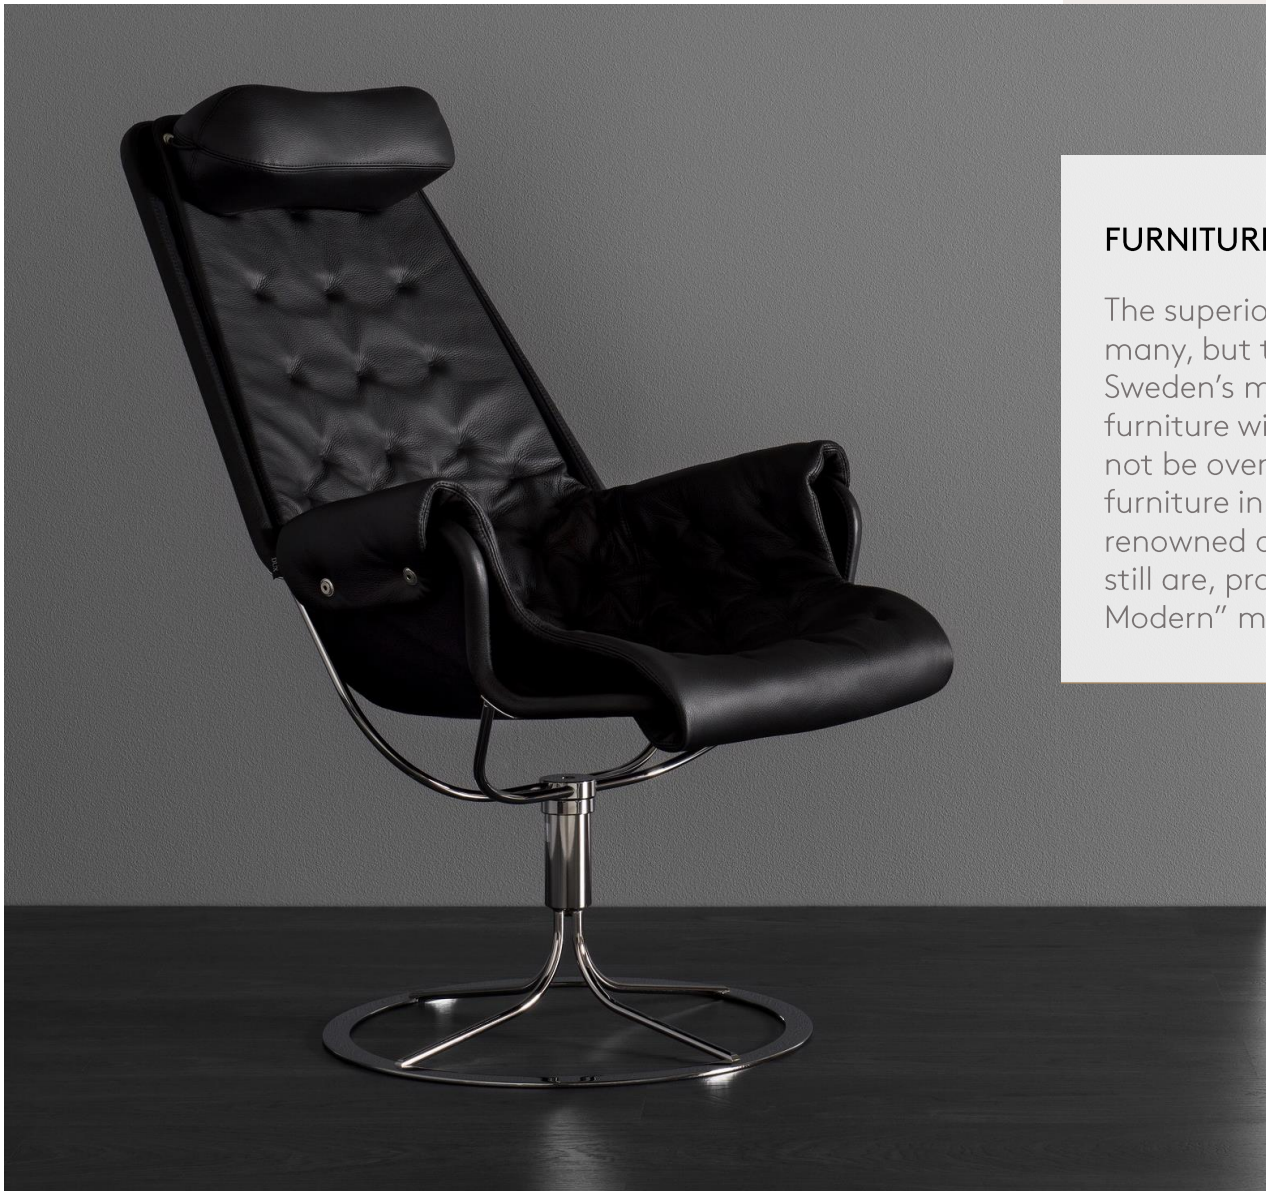

OVER 90 YEARS OF
RESEARCH AND
DEVELOPMENT

MORE THAN JUST A MATRESS COMPANY...

BEDS

DUX high-performance sleep systems are the result of nine decades of research, testing and utilising technology, based on an encyclopedic understanding of sleep mechanics. The company has collaborated with leading sleep scientists, gaining an extensive knowledge of sleep. Studies proved that DUX users fall asleep faster and enjoy an extra hour of deep sleep, resulting in better health.

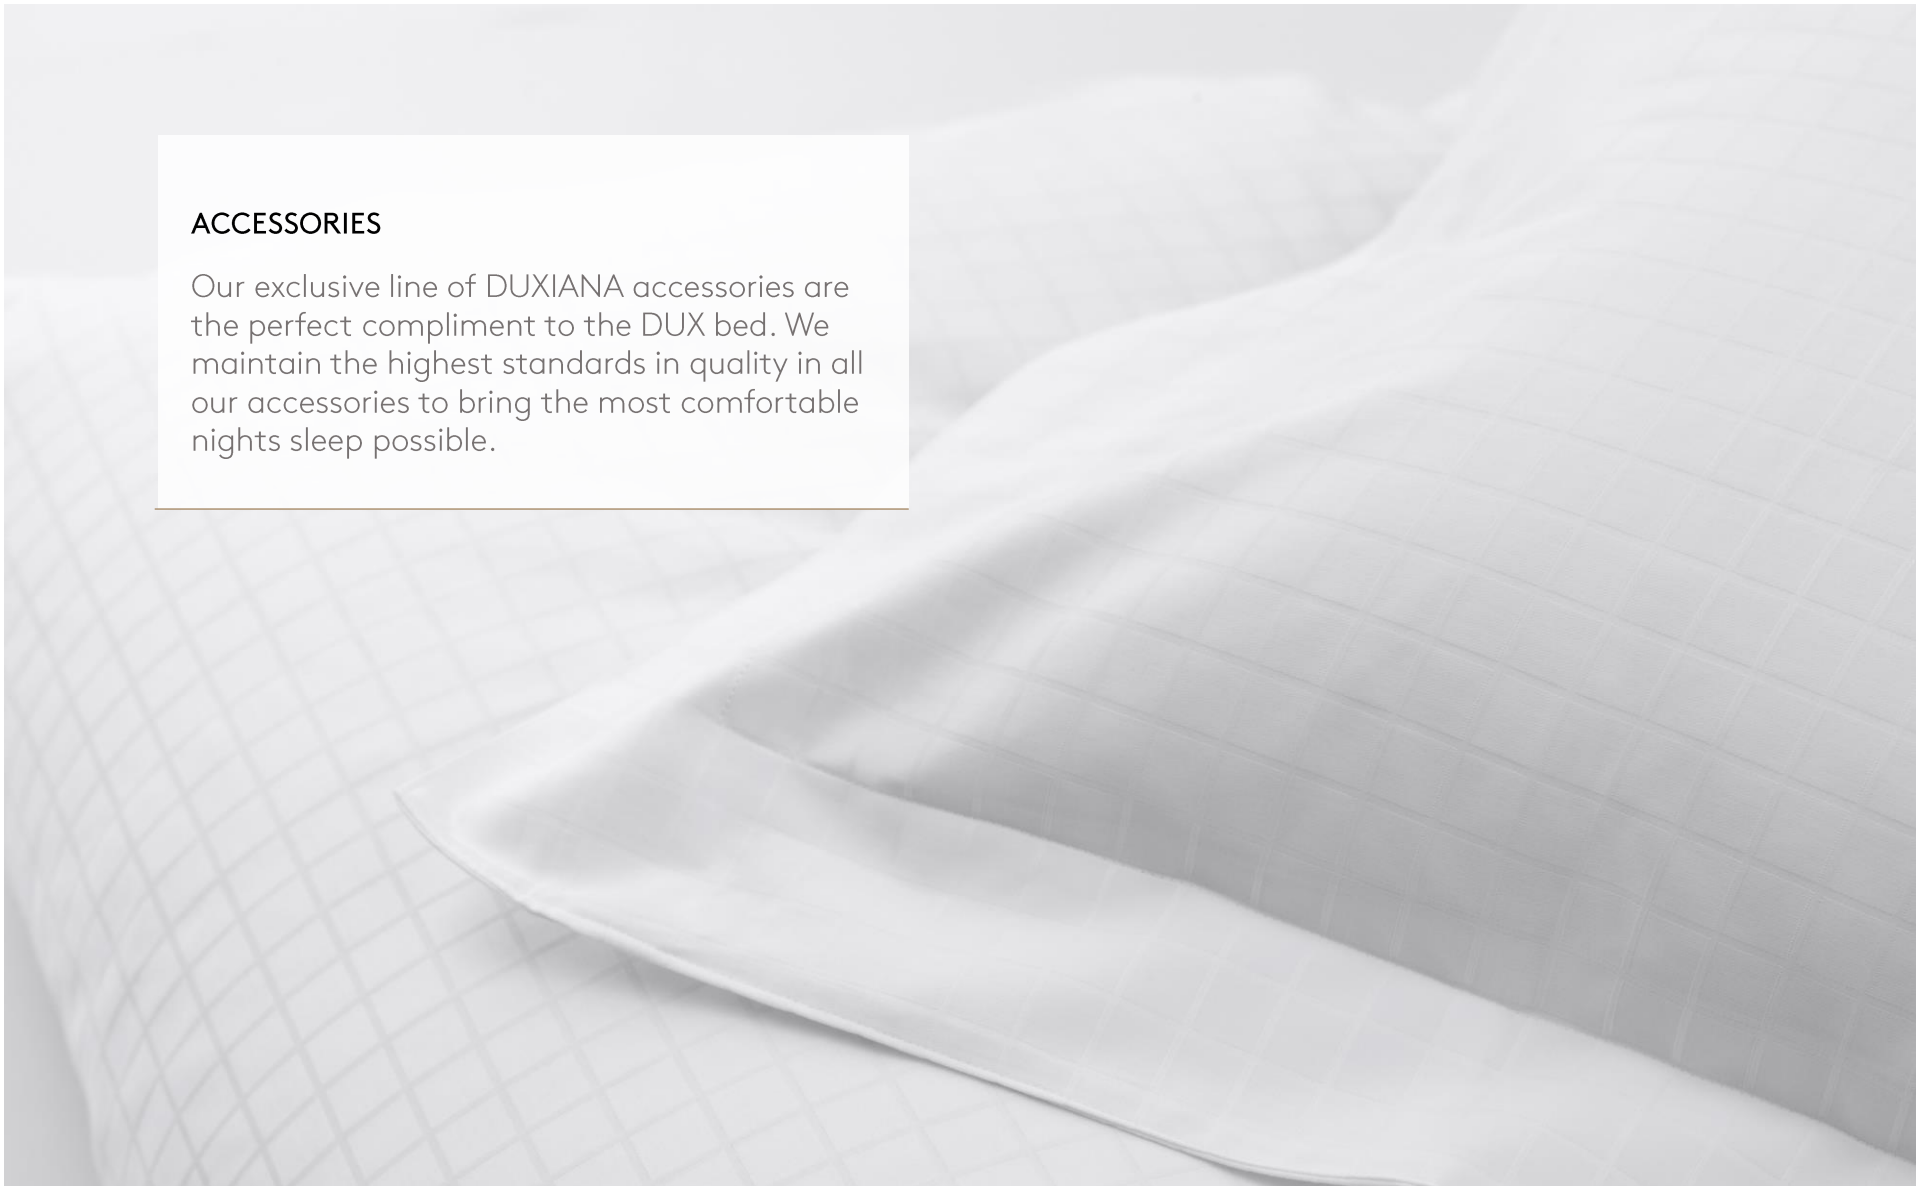

FURNITURE

The superiority of a DUX bed is well known to many, but the fact that DUX is also one of Sweden's most successful manufacturers of furniture with a unique design history should not be overlooked. DUX produce a range of furniture in collaboration with a number of renowned designers, whose styles were, and still are, prominent examples of the "Swedish Modern" movement.

ACCESSORIES

Our exclusive line of DUXIANA accessories are the perfect compliment to the DUX bed. We maintain the highest standards in quality in all our accessories to bring the most comfortable nights sleep possible.

OUR STORY

OUR STORY

ON A COLD NIGHT IN CHICAGO...

In 1924, the Swedish chocolate maker Efraim Ljung checked into a small hotel in Chicago and was fascinated by how comfortable the bed was... Using a small pocketknife, he carefully cut open the mattress to discover flexible springs inside.

FROM CHOCOLATIER TO BED MAKER

Back home in Sweden, Efraim shifted his focus from his confectionary business and began devoting all his time to experimenting with flexible steel springs of varying strengths and elasticity.

THE JOURNEY

DUX began manufacturing mattresses in Malmö in 1926. We continue to manufacture all of our products in-house today, not only making our unique springs, but even the spring making machines.

A STORY OF COLLABORATION

At DUX, we have a long tradition of collaborating with skilled, influential designers and partners. This collaborative approach started with the famous Bruno Mathsson, the designer who has influenced modern Swedish furniture design the most. Thanks to the collaboration, we have created several timeless design classics that we still produce today, such as Jetson.

We believe in collaborations with the designers, which is why we collaborate with several partners such as Claesson Koivisto Rune and Norm Architects.

DUX TODAY

A FAMILY AFFAIR

Over 90 years later, the premium Swedish brand is still 100% family-owned. Efraim Ljung's four great-grandchildren, Henrik, Charlotte, Anders and Oscar.

The fourth generation of the Ljung family have readily assumed Efraim's role, expertly running the company along the path set forth by their ancestors.

GLOBAL MANUFACTURING

Sösådala: Once more the home of Swedish furniture expertise, craftsmanship and development of world-famous beds, providing all that DUX represents; outstanding quality, comfort and design. Production of all beds and accessories, as well as replacement material for the upholstered furniture collection are produced at the Sösådala factory.

Portugal: The company began operating in Portugal in the mid-80's. Portugal has been a prominent producer in the textile industry for many years.

AN INTERNATIONAL BRAND

DUX is now globally recognised within the bed and furniture category and is represented in almost 300 stores spread over 34 countries.

We are also proud to showcase our products in our very own hotel, The DUXIANA in Malmö, Sweden.

DUX are always looking for new re-sellers for our products and are keen to discuss this in detail with you.

DUX can help add value to your brand delivering a premium, additional choice for your customers which can enhance the customer journey, increase sales and drive overall product margin.

DESIGNERS

DESIGN WITH DUX

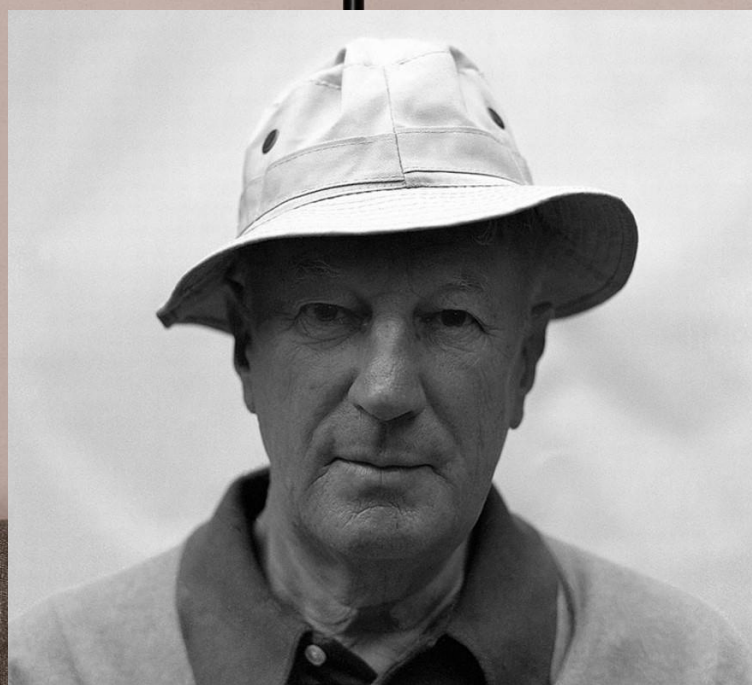

We have a long tradition of collaborating with great designers. It all started with the famous Bruno Mathsson, who had the largest impact on modern Swedish furniture design. Thanks to that collaboration, we have created several timeless design classics that we still produce, e.g. Jetson easy chair. We believe in partnerships with the designers, that is why we work with several partners like Claesson Koivisto Rune and Norm Architects.

BRUNO MATHSSON

The architect and designer Bruno Mathsson was born in Varnamo, Sweden in 1907. No one has made a larger impact on modern Swedish furniture design than Mathsson. Bruno Mathsson and DUX had a close, creative partnership during the 60s and 70s which created several timeless design classics that DUX still produces today.

"Comfortable seating is an art, but it shouldn't be. Making furniture to sit on should be produced with such fine art that sitting in them doesn't need to be an art."

CLAESSON KOIVISTO RUNE

Claesson Koivisto Rune is a Swedish architectural partnership, founded in Stockholm, in 1995, by Märten Claesson, Eero Koivisto and Ola Rune. It started as an architectural firm, but has since become an internationally-acclaimed, multi-disciplinary office with an equal emphasis on both architecture and design. Project categories include buildings, hotels, homes, shops, offices, exhibitions, kitchens, sanitary ware, tableware, glassware, furniture, textiles, tiles, lighting, electronics, candy and even a trophy (the Swedish TV-prize Kristallen)

NORM ARCHITECTS

Norm Architects was founded in Copenhagen in 2008 by Danish designers Jonas Bjerre-Poulsen and Kasper Ronn (who have since been joined by Linda Korndal). Based in the centre of Copenhagen, Norm Architects work covers multiple disciplines including industrial design, residential architecture, commercial interiors and art direction.

The Domus collection has been revitalized during 2020 by Norm Architects. The collection was restored to the range after DUX and Norm Architects browsed through the archive of old classics during a previous collaborative project. The Domus collection consists of Domus Chair Wood with matching footstool, Domus Chair Steel and Domus table.

OUR FURNITURE

JETSON

THE ULTIMATE SEATED COMFORT, MODERN DESIGN,
EASY TO PLACE AND A TREASURE PIECE FOR THE HOME

Iconic easy chair designed by Bruno Mathsson. The Jetson chair reflects both his obsession with comfort and a classic Swedish modern design approach. It features a bowl-shaped seat, ergonomically designed high back with head pillow. Chrome swivel base with a unique self-return mechanism.

SUPERSPIDER

A COMFORTABLE LIE DOWN EASY CHAIR
THAT COMBINES COMFORT AND RELAXATION

Classic easy chair designed by DUX Design Team. For your own corner, or have two next to each other to create that sacred and relaxed space in your home.

SPIDER

A COMFORTABLE, RELAXING, CLEAN LOOK WITH EXQUISITE COMFORT DUE TO DUX SPRINGS

With its six oblong cushions and spider-like legs, the Spider Chair from 1982 is already a modern classic. It was reintroduced as part of the DUX Design Revival 2012. With the same unique design but a greater level of comfort than the earlier version, this armchair now comes with the DUX Pascal system in the cushions, providing optimal seating comfort. Fabric or leather upholstery

PERNILLA 69

PERNILLA 69 IS THE QUEEN OF SEATED COMFORT AND WAS ORIGINALLY MOULDED FROM A SNOW PILE

Classic easy chair designed by Bruno Mathsson. In pressed moulded beech wood with fine details and great comfort.

INTER DINING TABLE

A BEAUTIFUL, STYLISH DINING TABLE IN A STANDARD SIZE

A classic dining table, perfect for 6 people, with an elegant tabletop and slender legs.

The Inter table is also available as a Café table and as an extended dining table, perfect for all locations and occasions.

LUNARIA

A VERSATILE TABLE MADE OF WARM WOOD WITH SOFT LINES

Made in natural ash treated with wax oil. Lunaria's personality relies on the use of soft and warm wood and its subtle, irregularly rounded tabletop shapes – reminiscent of how the moon disc can appear slightly squeezed due to refraction of the light by the earth's atmosphere.

Available in 3 sizes.

PRONTO

ADJUSTABLE AND STYLISH TABLE THAT WORKS ON MANY SURFACES AND CAN BE USED IN MANY WAYS

After a break from the collection for a year or two, Pronto and the slightly larger Pronto XL are back. The design has been adapted to today's design language with a base of black or white marble. Chrome frame and top of smoke-colored tempered glass

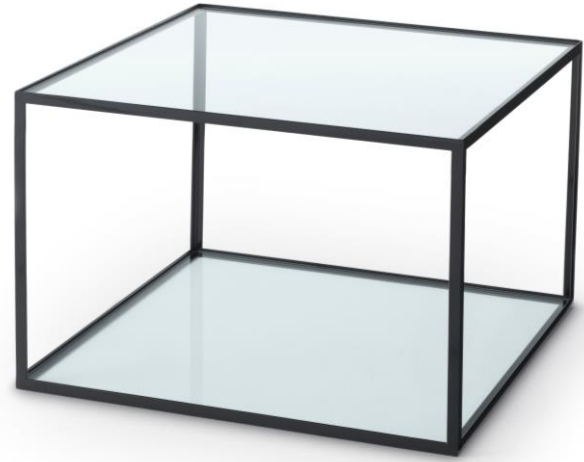

ALBERTO

A LIVING ROOM TABLE THAT MEETS ALL STORAGE REQUIREMENTS WITH CLEAN LINES

This classic design from DUX is now back in our collection. This table featured in the 1980 edition of the 'Bra Bohag' catalog, but the design and materials have now been given a contemporary update. Both table top and base are made of clear tempered glass. The table is part of the DUX Design Revival 2014. Chrome or black frame. Tempered glass.

Available in 2 sizes.

RITZY

A MODERN, SUPER EXCLUSIVE SOFA WITH EXQUISITE DETAIL

An elegant sofa for the home or office. The beautifully-designed back deserves to be a feature of the room rather than be hidden against the wall. DUX Pascal springs in the seat provide optimal seating comfort. Stainless steel legs. Fabric or leather upholstery.

Available as a 3 seater, 2 seater and individual easy chair.

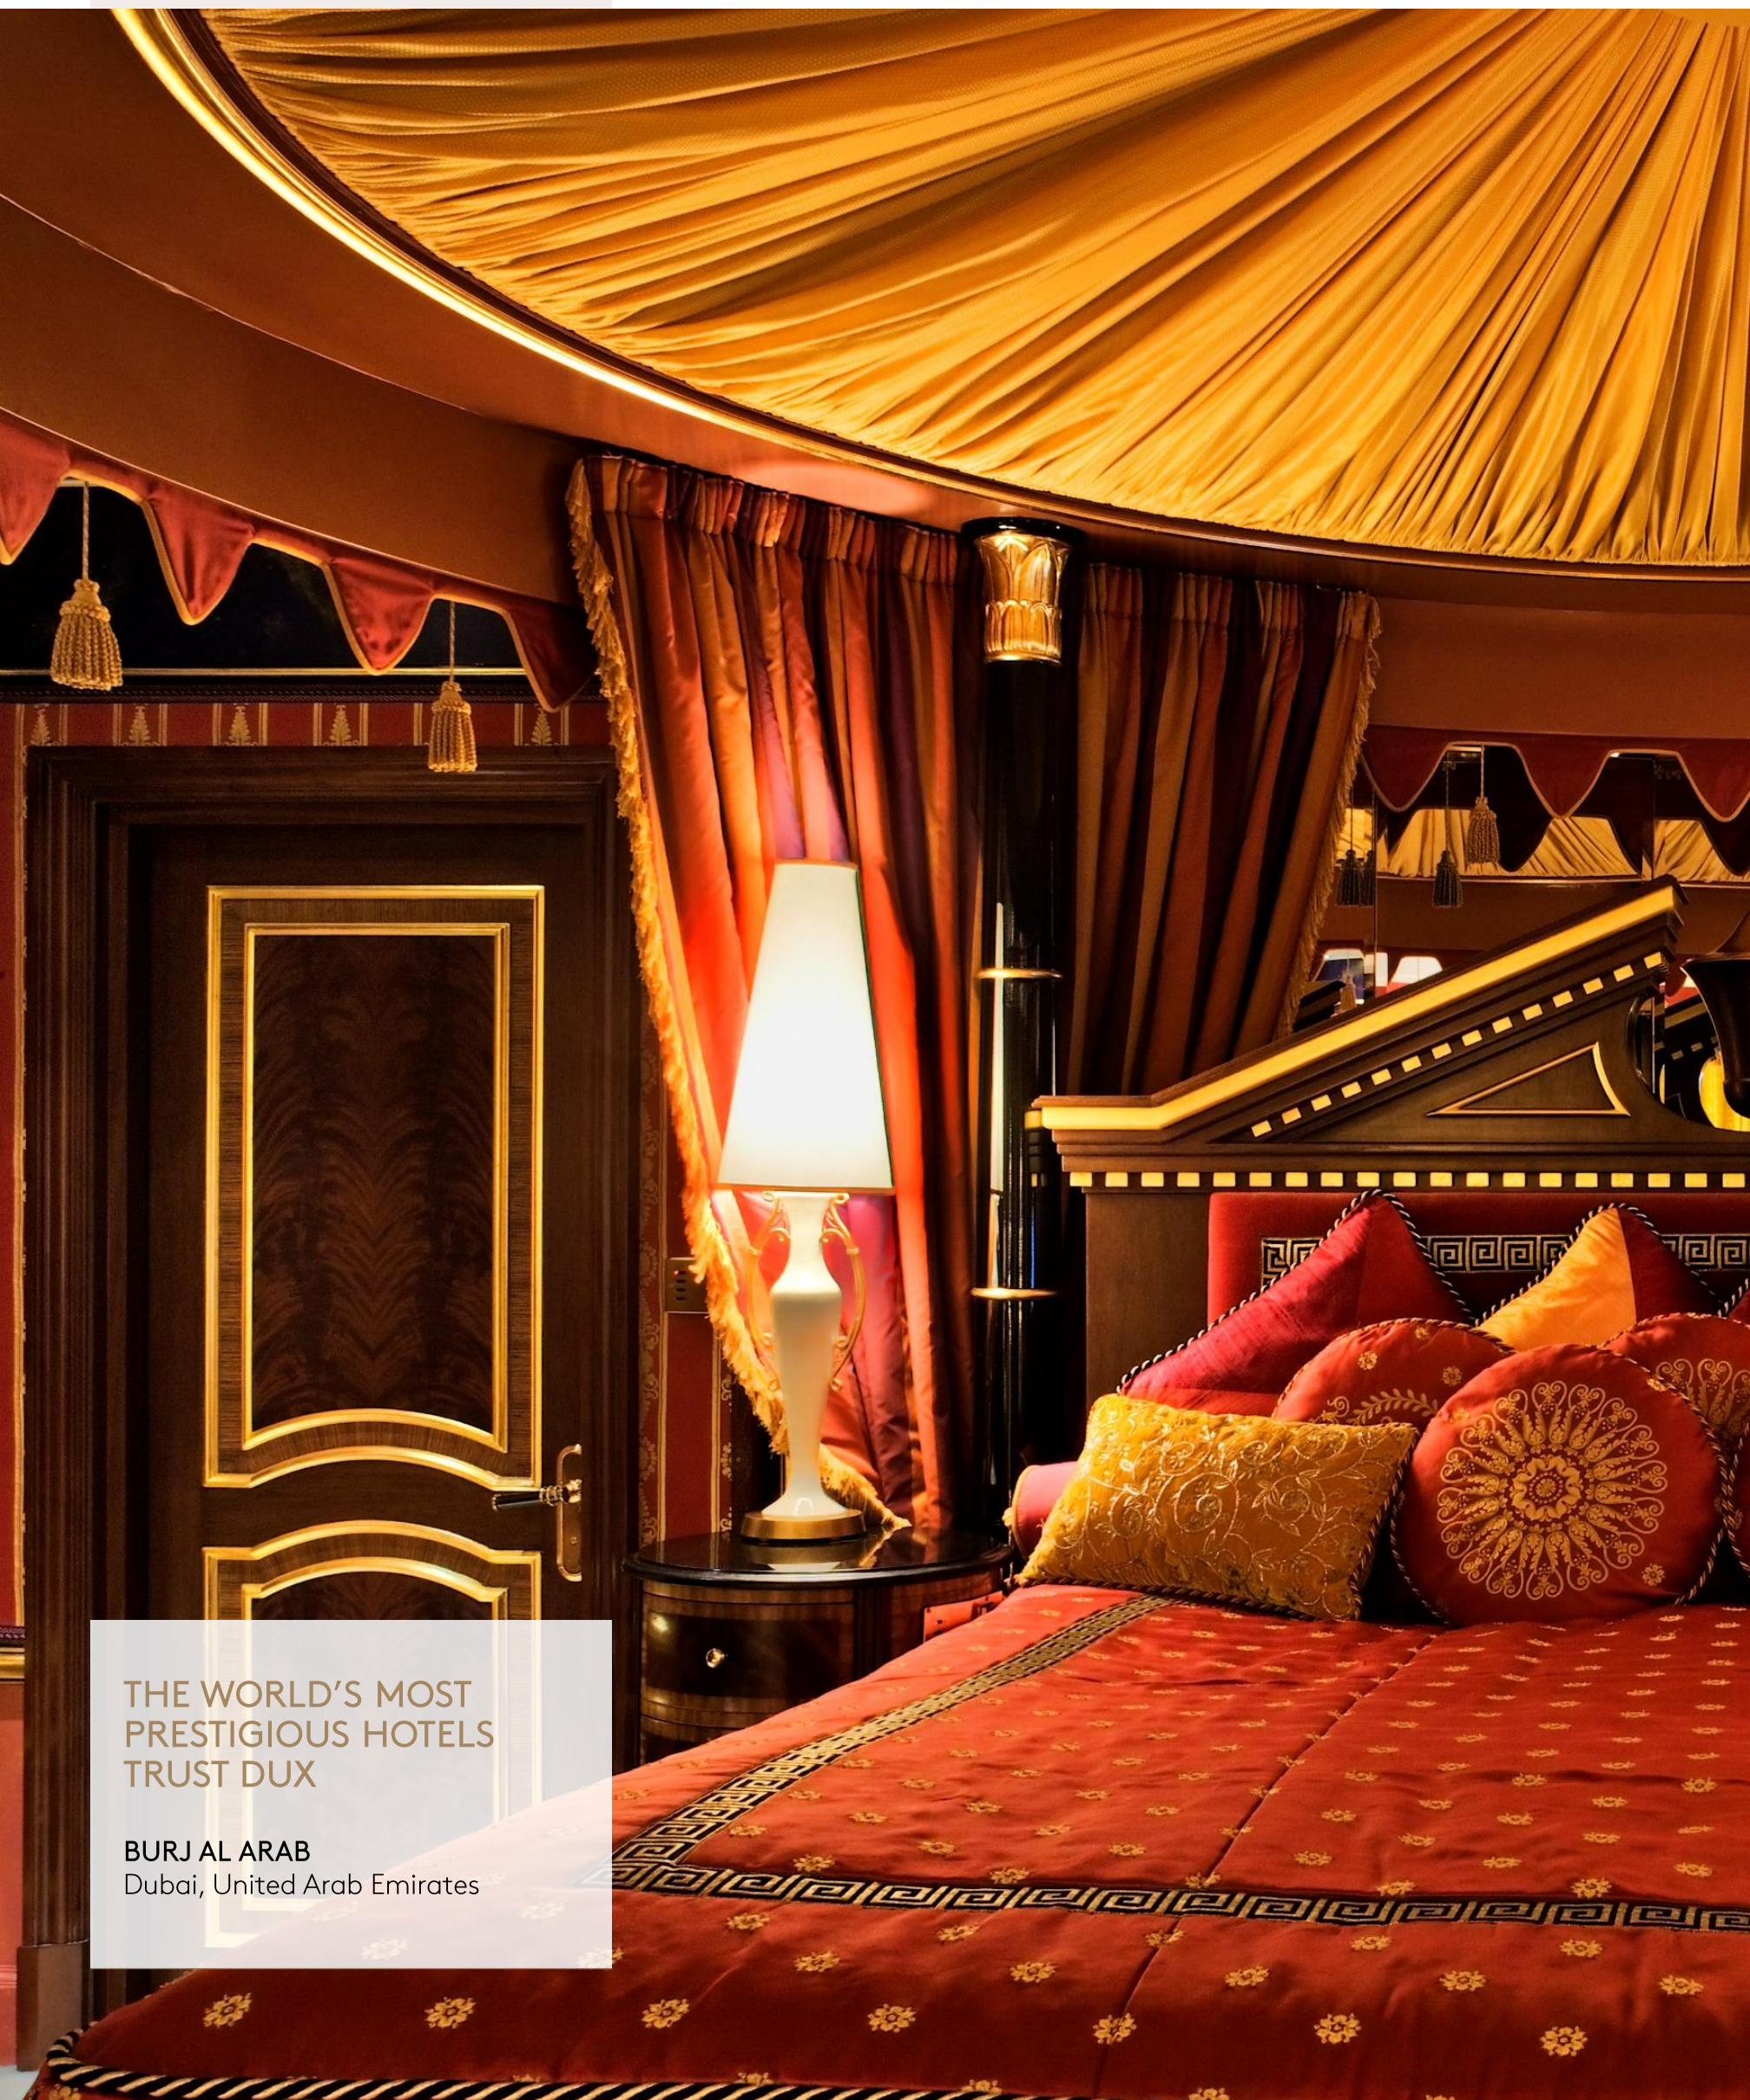

SAM

We would argue that a good chair should be as visually appealing as it is comfortable

Enhance your dining experience! The Sam dining chair was revived in 2015 as part of the DUX Design Revival. A chrome frame and deep-tufted seat section with cold foam and a decorative buckle at the back.

Available with or without armrests.

DUX DIFFERENCES

DUX INNOVATION

UNIQUE, CONTINUOUS COIL SPRING DESIGN

Designed for ultra high performance, our signature bed springs require over 1,000 meters of high tensile Swedish steel wire*. The final product consists of up to 4,180 interconnected bed springs whose combined support provides maximum pressure relief to every part of the body. Our design results in a vastly superior distribution of pressure than mattresses whose coils work independently of one other. The result is active, dynamic support, unfettered circulation, and unrivaled ergonomic comfort.

PASCAL® CUSTOMISABLE SUPPORT SYSTEM

We believe that every body is unique and that there is nothing more personal than a bed. That is why we came up with our patented Pascal Customisable Support System in which each spring has been carefully designed to become a tiny mechanical wonder. DUX beds have interchangeable cassettes of different spring tensions that lets you custom-configure the parts. The goal is to match your body size and weight's exact requirements and change them while you change.

REPLACE, RENEW, RESTORE

Our component strategy allows you to exchange the parts, refresh them or upgrade. The DUX top pad is not fastened to the bed. The top of the mattress unzips to access the Pascal system and the dual spring bases operate independently. Since we design our beds to last a lifetime, we give you the possibility to restore them when they show wear. We also want you to access innovative solutions over the years to improve your experience day by day.

THE ENVIRONMENTALLY RESPONSIBLE CHOICE

OEKO-TEX® STANDARD 100 CERTIFICATE

We are extremely proud of the fact that the DUX bed has repeatedly sustained the Oeko Tex 100 stamp of approval. This certification conforms to meeting the strict human ecological requirements of being free from unhealthy or harmful substances, therefore you can be sure that your guests are sleeping on a bed that is chemical and toxin-free.

IT'S IN OUR NATURE

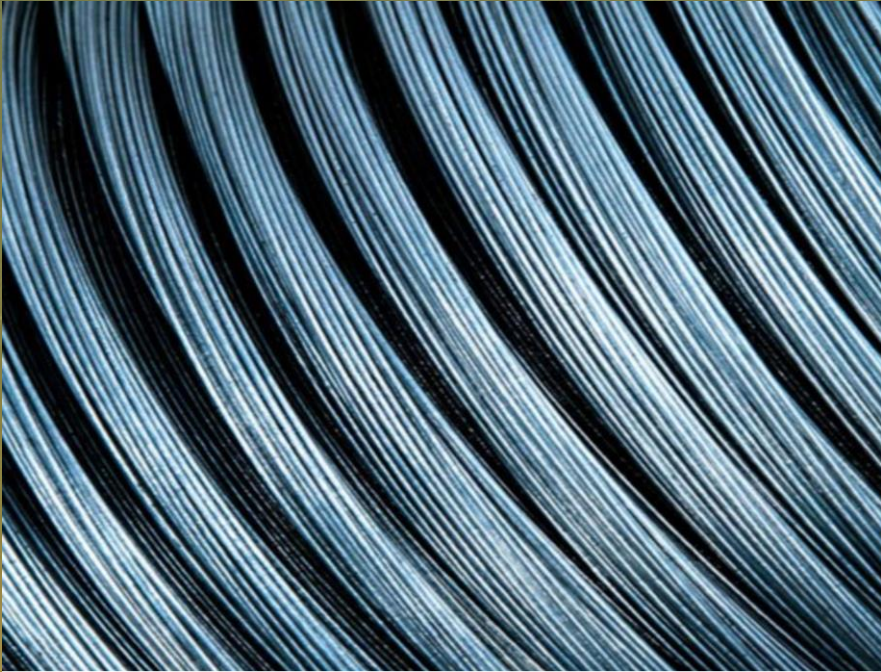

The integrity of each DUX High Performance Sleep System starts with the integrity of the materials we choose for its construction. We choose the highest quality materials based exclusively on their performance characteristics.

THE
ENVIRONMENTALLY
RESPONSIBLE CHOICE

OEKO-TEX 100
CERTIFICATION

HIGH-TENSILE SWEDISH STEEL

The finest Swedish steel is the backbone of every DUX bed. Over a kilometer of steel wire is used to create the continuous-coil design in a king-size DUX Bed. This unique design coupled with the strongest Swedish steel allows us to make one of the smallest and most dynamic springs on the market.

SLOW GROWTH SWEDISH PINE

The wood used to construct our bedframe grows in the Northern most part of Sweden. The extremely harsh winters produce trees that grow very slowly – evidenced by the tightly spaced growth rings – producing pine that is unmatched in strength.

HIGH THREAD COUNT COTTON

The DUX Bed is covered in high thread count cotton. Not only because of its softness but because higher thread counts yield a stronger fabric. The result is a ticking that is not only extremely soft but exceptionally durable.

NATURAL HEVEA LATEX BLEND

When consumers want to know a product is natural and good for the environment while also looking for a product that will help them sleep better - blended latex is the answer. Natural components, elasticity, conformity, health benefits and the luxurious feel of Natural Latex combine with the extended durability from Synthetic Latex to make a product that the Earth provided, and we perfected.

OUR BEDS

DUX®

303

OUR NEWEST MATTRESS BED WITH CUSTOMISABLE COMFORT ZONES.

The DUX 303 is our first bed that doesn't feature an internal wooden frame but still retains the legendary comfort of DUX designed for your existing bed frame.

Featuring two layers of Swedish steel springs and our patented, integrated Pascal® system which delivers easy adjustment of comfort zones from soft to extra firm. The Pascal system contains 3 or 6 cassettes of DUX springs each with different densities to perfectly align with the contours of your body. The DUX 303 also features 3 cm of Talalaya latex filling, grey quilted ticking and brown leather detail.

Features:

- Unique DUX spring system with Swedish steel springs
- DUX Pascal system – easy adjustment of comfort zones from soft to extra firm
- The Pascal system contains 3 or 6 cassettes of DUX springs each with different densities to perfectly align with the contours of your body
- Grey quilted ticking
- Double spring mattress with natural latex and two layers of 10 cm and 12 cm springs
- Replaceable top on the upper side of the bed
- 3 cm of Talalaya latex filling on the top of the mattress
- Finished with leather detail
- Available in medium or firm
- 20-year limited guarantee

-	1,492	-
1,592	-	1,654

Dimensions:

- Mattress height: 34 cm
- Total mattress height with Xupport top pad: 40 cm

303

DUX®

1001

LEGENDRY COMFORT IN THE ORIGINAL LOW-PROFILE DUX BED WITH DYNAMIC TWO-LAYER SPRING CONSTRUCTION

The DUX 1001 is based on the very first DUX bed manufactured in 1926. It is the combination of our proud heritage and new technology in its purest form. The technology and design has been developed and refined over the years, but this model was the foundation of the legendary DUX comfort that has been helping people all over the world enjoy a better night's sleep since 1926. The DUX 1001 is a single frame bed made of durable materials encasing a double layer of the unique DUX interlocking spring system, available in medium or firm variants. If you have not yet slept in a DUX bed, this is the perfect introduction to DUX comfort and support

Features:

- Original DUX design
- Unique DUX spring system with Swedish steel springs
- Double spring mattress with natural latex and two layers of 9 cm and 12 cm springs
- Xupport removable top pad
- Replaceable top on the upper side of the bed
- Leather detail
- Velcro fastening for bed skirt
- Available in medium or firm
- 20-year limited guarantee

DUX®

8008

THE ULTIMATE SLEEPING EXPERIENCE. CUSTOMIZABLE COMFORT ZONES AND EXTRA LUMBAR SUPPORT THAT CAN BE ADJUSTED

DUX 8008 continental bed is our most advanced and exclusive bed. It has twice as many springs as a regular bed, and more customisation options than any other. DUX's double-spring system, with thousands of dynamically interlinked springs, offers exceptional spring depth. Depending on the size, the bed features up to six Pascal cartridges divided according to the body's three comfort zones – shoulders, hips, and legs. Each zone can be adjusted to be soft, medium, firm, or extra firm. DUX 8008 also features an adjustable lumbar support system for each side of the bed. With the twist of a dial, you can visibly set the level between medium and firm

Features:

- Unique DUX spring system with Swedish steel springs
- DUX Pascal system – easy adjustment of comfort zones from soft to extra firm
- Continental mattress with natural latex, cotton batting, and two layers of 12 cm springs
- Adjustable lumbar support
- Xupport removable top pad
- Replaceable top on the upper side of the bed
- Leather detail
- Velcro fastening for bed skirt
- Available in medium or firm

DYNAMIC

LEGENDARY DUX COMFORT IN A DUAL-BASE PLUS CUSTOMIZABLE COMFORT ZONES IN AN ADJUSTABLE BED.

The DUX Dynamic bed combines the exceptional benefits of a DUX bed with the elevation capabilities of an adjustable bed. The advanced DUX Dynamic has three layers of flexible Swedish steel springs to ensure that your body is supported naturally and comfortably. The upper layer is based on the unique DUX Pascal system, with three comfort zones that adapt individually to your shoulders, torso and legs. The DUX Dynamic operates effortlessly with a safe, low voltage motor and is built to withstand years of use. The hand operated remote control makes the DUX Dynamic quiet and easy to use. The DUX Dynamic is supplied with a chrome retainer bar to hold the mattress in place.

Features:

- Unique DUX continuous coil spring system made with Swedish steel
- DUX Pascal system – easy adjustment of comfort zones from soft to extra firm
- Adjustable bed with natural latex, cotton batting, and two layers of 12 cm springs
- Extra-firm pocket springs in the base for increased stability and operation
- Reinforced steel structure
- Dual wireless motor
- Handheld, wireless control with illuminated soft-touch buttons
- Leather detail
- Two points of articulation powered by two individual motors
- Retainer bar cover with DUX logo
- Pocket for remote control
- 20-year limited guarantee

HOTEL PARTNERS

THE WORLD'S MOST PRESTIGIOUS HOTELS TRUST DUX

ALL THE PROOF YOU NEED

We are proud that over 150 of the world's finest hotels realize that the greatest luxury of all is a good night's sleep. You know a bed is special when a hotel includes it on its amenities list, along with its exclusive spa, award winning restaurants, and white glove concierge service, as so many of our hotel partners choose to do.

OUR EXPERIENCE GOES FURTHER THAN HOTELS

Whilst hotels are a key focus for DUX, it is important to mention how our ability to be agile and diverse has enabled us to support many other industries such as cruise ships, aviation, yachting, automotive and even provided beds for the Swedish Navy submarines!
